EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 17,18,43,44 and 47-49 in each of these claims a comma [,] has been inserted after the claim number to which each of these dependent claims depends. As commas have been used in all of the other dependent claims, it appears as though commas were inadvertently omitted from these claims.

INTERVIEW SUMMARY

The Applicant's interview summary presented in the response dated 05 January 2007 is complete as to the content of the interview and the agreement that was reached on the subject matter to be added to the independent claims. The Examiner appreciates the courtesy extended by Mr. Hulsberg and Ms. Gavin.

REASONS FOR ALLOWANCE

The patentability of the present claims is best evidenced by the following drawing figure of Warburton.

The darkened area A represents where the outwardly extending member of the inner closure mechanism of the locking flap would need to be so as to align above the inwardly extending member of the lid when the inwardly extending member of the lid is received by the inwardly recessed pocket. There is no teaching to add an outwardly extending member at this location so as to provide the "two-way" locking mechanism that is claimed. Accordingly, the claims are allowable over the prior art of record.
